

## MT050B-KIT-DRYER

MT050B DryLine® DEHYDRATOR DRYING MEMBRANE REPLACEMENT KIT

### FILTER BOWL AND DRYER TUBE SUB-ASSEMBLY

1. Install #6-32 Tinnerman clips onto filter bowl mounting bracket so that the clips snap into place with the curved lip on the filter bowl side.
2. Wrap male threads on check-valve side of filter bowl assembly with PTFE tape (included). Screw assembly into dryer tube input until hand-tight.
3. Wrap threaded end of the 3/8" compression fitting with PTFE tape. Screw compression fitting into output side of dryer tube.

**DRYER TUBE AND FILTER BOWL INSTALLATION**

## MT050B DryLine® DEHYDRATOR DRYING MEMBRANE REPLACEMENT KIT

---

1. Ensure that the filter bowl and dryer tube sub-assembly is complete as shown to the left.
2. Slide the end of the cable ties through the slots in the saddle mounts. Wrap the white nylon cable ties around the dryer tube.
3. Fasten the filter bracket to the chassis using #6-32 screw assemblies, or #6-32 screws with #6 flat and lock washers.
4. Tighten the cable ties around the dryer tube. Trim off excess part of cable ties.
5. Attach compressor output hose to the 5/16 barbed fitting on the filter bowl input.
6. Slide two 1/4" hose clamps onto the solenoid drain hose. Attach the solenoid drain hose to 1/8" barb on bottom part of filter bowls and solenoid input barb.
