Universal Mounting Kits

Kit contents

All components are included to mount the closure in each of the specific applications.

1. Pole mounting: FOSC-A/B-UNI-MOUNT-P

Installation of the mounting bracket:

Wooden pole: see picture 1 or 2 Concrete pole: see picture 2

Mounting of the FOSC closure: see pictures 3 and 4

2. Wall mounting: FOSC-A/B-UNI-MOUNT-W

Installation of the mounting bracket: see picture 1

Mounting of the FOSC closure: see pictures 3 and 4

3. Rod mounting: FOSC-A/B-UNI-MOUNT-R

Installation of the mounting bracket: see picture 5

Mounting of the FOSC closure: see pictures 3 and 4

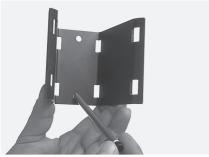

4. Aerial mounting: FOSC-A/B-UNI-MOUNT-A

Preparation of the mounting bracket: see picture 6

Mounting of the FOSC closure: see picture 3 and $4\,$

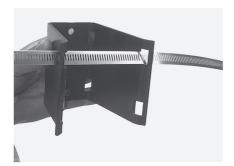

Mounting of the bracket onto the wire

7. Bring mounted closure to mounting place, put the wire between clamps and tighten the nuts.

1. At the desired location, mark and drill the holes (drill diameter 8 mm - depth 60 mm).

Fix mounting bracket to pole with 2 screws (diameter 6 mm - length 40 mm).

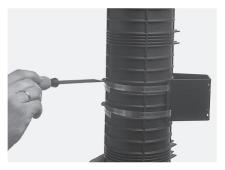

3. Insert the 2 metal straps through front slots of the mounting bracket.

5. Fix the mounting bracket with the 2 rodclamps onto the rod.

2. Insert the 2 longest metal straps through the slots in the back of the mounting bracket. Fix mounting bracket onto the pole by closing the metal straps around the pole. Fasten the straps with a screwdriver.

4. Put the middle of the dome of the FOSC closure against the mounting bracket. Close the metal straps and fasten with a screwdriver (do not deform the dome).

6. Fix the 2 wire clamps onto the mounting bracket. Tighten the nuts off the clamps onto the bracket. Make sure that the clamps are positioned so that the wire is in line with the closure.

7. Bring mounted closure to mounting place, put the wire between clamps and tighten the nuts.
