Front-to-Back Ratio	63 dB
Beamwidth, Horizontal	3.2 °
Beamwidth, Vertical	3.2 °
Return Loss	17.7 dB
VSWR	1.3
Radiation Pattern Envelope Reference (RPE)	7010F
Electrical Compliance	Brazil Anatel Class 2   ETSI 302 217 Class 3   US FCC Part 101B2
Mechanical Specifications	
Compatible Mounting Pipe Diameter	50 mm-120 mm   2.0 in-4.7 in
Fine Azimuth Adjustment Range	±15°
Fine Elevation Adjustment Range	±15°
Wind Speed, operational	180 km/h   111.847 mph

250 km/h | 155.343 mph

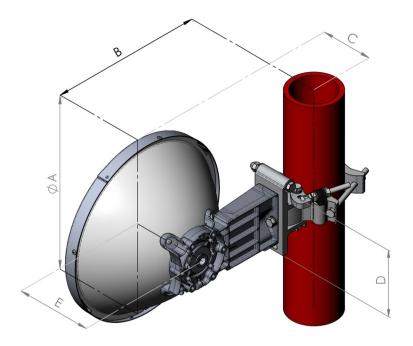

Wind Speed, survival

Antenna Dimensions and Mounting Information

Dimensions in inches (mm)					
Antenna size, ft (m)	А	В	С	D	E
1 (0.3)	15(382)	12.7(323)	6(151)	6.1(155)	7(177)

#### Wind Forces at Wind Velocity Survival Rating

Axial Force (FA)	446 N   100.265 lbf
Side Force (FS)	198 N   44.512 lbf
Twisting Moment (MT)	144 N-m   1,274.507 in lb
Zcg without Ice	28 mm   1.102 in
Zcg with 1/2 in (12 mm) Radial Ice	54 mm   2.126 in
Weight with 1/2 in (12 mm) Radial Ice	12 kg   26.455 lb

#### Packaging and Weights

Height, packed	350 mm   13.78 in
Width, packed	400 mm   15.748 in
Length, packed	400 mm   15.748 in
Packaging Type	Standard pack
Volume	0.1 m³   3.531 ft³
Weight, gross	6.2 kg   13.669 lb
Weight, net	4.7 kg   10.362 lb

**COMMSCOPE**°

Operating Frequency Band	Bands correspond with CCIR recommendations or common allocations used throughout the world. Other ranges can be accommodated on special order.
Gain, Mid Band	For a given frequency band, gain is primarily a function of antenna size. The gain of Andrew antennas is determined by either gain by comparison or by computer integration of the measured antenna patterns.
Boresite Cross Polarization Discrimination (XPD)	The difference between the peak of the co-polarized main beam and the maximum cross-polarized signal over an angle twice the 3 dB beamwidth of the co-polarized main beam.
Front-to-Back Ratio	Denotes highest radiation relative to the main beam, at $180^{\circ} \pm 40^{\circ}$ , across the band. Production antennas do not exceed rated values by more than 2 dB unless stated otherwise.
Return Loss	The figure that indicates the proportion of radio waves incident upon the antenna that are rejected as a ratio of those that are accepted.
VSWR	Maximum; is the guaranteed Peak Voltage-Standing-Wave-Ratio within the operating band.
Radiation Pattern Envelope Reference (RPE)	Radiation patterns define an antenna's ability to discriminate against unwanted signals. Under still dry conditions, production antennas will not have any peak exceeding the current RPE by more than 3dB, maintaining an angular accuracy of +/-1° throughout
Wind Speed, operational	For VHLP(X), SHP(X), HX and USX antennas, the wind speed where the maximum antenna deflection is $0.3 x$ the 3 dB beam width of the antenna. For other antennas, it is defined as a deflection is equal to or less than 0.1 degrees.
Wind Speed, survival	The maximum wind speed the antenna, including mounts and radomes, where applicable, will withstand without permanent deformation. Realignment may be required. This wind speed is applicable to antenna with the specified amount of radial ice.
Axial Force (FA)	Maximum forces exerted on a supporting structure as a result of wind from the most critical direction for this parameter. The individual maximums specified may not occur simultaneously. All forces are referenced to the mounting pipe.
Side Force (FS)	Maximum side force exerted on the mounting pipe as a result of wind from the most critical direction for this parameter. The individual maximums specified may not occur simultaneously. All forces are referenced to the mounting pipe.
Twisting Moment (MT)	Maximum forces exerted on a supporting structure as a result of wind from the most critical direction for this parameter. The individual maximums specified may not occur simultaneously. All forces are referenced to the mounting pipe.

COMMSCOPE®

Packaging Type

Andrew standard packing is suitable for export. Antennas are shipped as standard in totally recyclable cardboard or wire-bound crates (dependent on product). For your convenience, Andrew offers heavy duty export packing options.
